

COURSE OVERVIEW

COSHH

TIMHS-104

Most workplaces use substances that can harm health if not properly controlled. COSHH (Control of Substances Hazardous to Health) is the legal framework that requires employers to manage these risks and protect workers from exposure.

This course provides essential training aligned with COSHH regulations, helping learners understand how to safely use, store, and control hazardous substances in the workplace.

Module 1: Overview

Most organisations rely on hazardous substances to support their operations. Regardless of the purpose or quantity, all necessary steps must be taken to ensure they are used safely and that a secure working environment is maintained for everyone on site.

- COSHH: its purpose and the law that governs
- Responsibilities of the employer
- Responsibilities of the employees
- COSHH risk assessments
- Control measures to limit risk

Module 2: Hazardous Substances

Under the Control of Substances Hazardous to Health (COSHH) Regulations, employers are legally required to implement policies, controls, and procedures that ensure the safe storage, use, and disposal of any materials that could pose a health risk.

- Physical controls
- Procedural control
- Areas to examine in a COSHH risk assessment

Module 3: PPE

Employers have a legal duty to protect workers from health and safety risks, including those arising from hazardous substances, as outlined in COSHH.

- Types of PPE
- The correct use of PPE
- Considerations to make before using PPE
- Safety checks when using a full-body suit

Suitable for:

Managers and team members who are responsible for or work with the storage and use of hazardous substances, and Health and Safety Advisors.

Skills achieved:

- Health and Safety (Intermediate)
- COSHH (Basic)

Related Resources:

- Accident Management System Assessment
- COSHH Spillage Emergency Site Assessment
- Personal Protective Equipment Assessment
- Hazard/Vulnerability Emergency Assessment
- Zoonosis Assessment
- COSHH Spillage Emergency Site Audit
- Accident Management System Audit
- Microbiological Contaminants Audit
- Zoonosis Audit

Benefits:

The Delegate will receive a Total Quality Assured (TQA) certificate of achievement upon successful completion.

Estimated Time:

40 Minutes
