

COURSE OVERVIEW

Fire Safety for Fire Marshals

THIS-114

The Regulatory Reform (Fire Safety) Order requires that locations with five or more employees on shift must have a designated and trained Fire Marshal.

This course provides nominated Fire Marshals with the knowledge required to carry out their duties and to contribute to the organisation's prevention of fire measures.

Module 1: The Law and Science

This module covers both fire safety law and the conditions required for a fire to begin.

- Regulatory Reform Fire Safety Order
- The fire triangle
- Fire prevention, discovery and spread

Module 2: The Risk of Fires

Fires spread quickly, and understanding how they start is crucial for safe extinguishment.

- Types of fire extinguishers
- Fire classifications
- Putting out fires
- Smoke inhalation and damage
- Heat damage

Module 3: Fire Controls

Many factors contribute to making a premise safe from fire, so it's essential to understand how to reduce the risk.

- Fire controls
- Good Housekeeping
- Extinguisher and fire exit inspections
- TAB

Module 4: Accountability and Training

Business and site managers are responsible for recognising fire hazards and ensuring appropriate controls are in place.

- The chain of accountability
- The provision of information
- Training provision

Module 5: Minimising the Risk of Fire

Fires spread rapidly, and removing potential fuel sources is key to containment.

- Minimising sources of ignition
- Reducing oxygen
- Arson

Module 6: Fire regulations

Fire Safety Regulations 2022 require improvements to fire safety since the Grenfell Tower fire.

- Continuous record-keeping
- Enforcement Authorities
- Residential properties

Module 7: Fire Inspections

Fire inspections ensure safety, prevent potential hazards, and safeguard lives and property.

- The law and associated offences
- Implications of non-compliance
- The burden of proof
- Fire inspections

Module 8: Risk Assessments

A fire risk assessment must be conducted if a work area has five or more employees.

- Five steps to fire risk assessments
- Fire hazards
- Identifying ignition hazards

Module 9: Tasks

Fire marshals play a crucial role in ensuring workplace safety by enforcing compliance with fire safety regulations.

- Tasks of a Fire Marshall
- Human Behaviours
- Assembly points

Suitable for:

Designated Fire Marshals or wardens and Health and Safety advisors.

Skills achieved:

- Fire Marshal (Expert)
- Fire Safety (Intermediate)
- Health and Safety (Intermediate)

Related Resources:

- Accident Management System Assessment
- Fire Safety Site Use Risk Assessment
- Hazard Vulnerability Risk Assessment
- Elevator Safety Audit
- Fire Safety Door Audit
- Risk Management Audit
- Fire Extinguisher Checklist
- Fire Safety Checklist

Benefits:

The Delegate will receive a Total Quality Assured (TQA) certificate of achievement upon successful completion.

Estimated Time:

100 minutes
