Fire Safety for Team Members

THIS-112

Fire is a serious risk for every organisation, and employees must understand local hazards and the prevention measures in place.

This mandatory course (for workplaces with five or more staff) teaches essential fire safety practices to protect yourself and others.

Module 1: The Law and Science
This module covers both fire safety law and the conditions required for a fire to begin.

- Regulatory Reform Fire Safety Order
- The fire triangle
- Fire prevention, discovery and spread

Module 2: The Risk of Fires
Fires spread quickly, and understanding how they start is crucial for safe extinguishment.

- Types of fire extinguishers
- Fire classifications
- Putting out fires
- Smoke inhalation and damage
- Heat damage

Module 3: Fire Controls
Many factors contribute to making a premise safe from fire, so it's essential to understand how to reduce risk.

- Fire controls
- Good Housekeeping
- Extinguisher and fire exit inspections
- TAB

Suitable for:

All team members and Health and Safety advisors.

Skills achieved:

- Fire Safety (Intermediate)
- Health and Safety (Basic)

Related Resources:

- Elevator Safety Audit
- Fire Safety Door Audit
- Fire Extinguisher Checklist
- Fire Safety Checklist

Benefits:

The Delegate will receive a Total Quality Assured (TQA) certificate of achievement upon successful completion.
