

COURSE OVERVIEW

Hot Tub Safety

TIPSS-102

A hot tub is a large, heated tub used for hydrotherapy, relaxation, and social enjoyment. Whether at home, in the garden, or on holiday, it's essential to follow simple maintenance routines and safety precautions to ensure a clean, comfortable, and safe bathing experience.

Module 1: Hot Tub Safety

In this module, you'll explore the essential components of a swimming pool system and the principles that keep it functioning, from pumps and filters to drains and chemical feeders.

- Components of a Hot Tub
- Pressure system hazard
- Energy considerations
- Water Safety considerations
- Filter and maintenance guide
- Sanitisation, pH and Shock Treatment
- Safe use for children and adults

Suitable for:

Hot tub owners, Maintenance team members, General Managers of locations where hot tubs are present, Policy Makers and Health and Safety Advisors.

Skills achieved:
